A tremendous aerolite has fallen in Jefferson township, Pa., near the West Virginia line. It looked like a great fiery ball, being hurled through space with immense velocity and noise. When the stone fell it broke into three pieces. A dispatch from Claysville, Pa., says:

"It is grayish in color, with a tendency to red streaks, and is more than thirty feet square. People are flocking to see the wonder in great numbers."—*Wil. Star.*

IMPROVING NEW YORK HARBOR.
An Immense Explosion in East River.
NEW YORK, Oct. 10.—Fully fifty thousand people lined the shores of the river to-day when the great explosion at Flood Rock, Hell Gate, occurred, while scores of excursion steamers, their decks black with people, awaited the shock. At 11:12 o'clock the earth trembled and the bosom of the river was pierced with a mighty upheaval of rocks and timber. Up went the glittering masses of water until it seemed as if they would never stop. At the height of two hundred feet the lifted waters paused in their flight, trembled aloft, and finally fell back again to the river. At this moment, when the air for hundreds of feet in each direction was filled with white masses of the sparkling water, the spectacle was grand beyond expression—the great body of white foam presenting the appearance of a fantastic iceberg, lifted bodily upon the solid basis of the dark waters.

Mary Newton, the eleven year old daughter of Gen. Newton, who as chief engineer, has conducted the operations at Hell Gate since the start, touched the button that set fire to the electric current that exploded the submarine mines, and shattered a mountain of rock, lifting it out of the bosom of the sea and crushing it to millions of fragments! It was little Mary Newton who, when a mere baby, touched off the first Hell Gate explosion, a few feet from the point where she stood to-day. The shock of the explosion was felt only slightly on the Astoria. Immediately after the explosion a fire broke out in the wreck and burned lustily amid the seething waters. 4 instantaneous photographs were taken by the officers corps of engineers, from the firing point Astoria. As far as possible, to judge from the position and appearance of the wreck the explosion was an entire success. The shock was felt to a slight extent only in the city.

A Captain's Fortunate Discovery.
Capt. Coleman, scht., Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness of his breast. His children were similarly afflicted and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy on board the schooner.

Free Trial Bottles of this Standard and Reliable at the Drug Store.

UTICA, N. Y., Oct. 6.—Mrs. Druse, who murdered her husband, with the aid of her son, daughter and nephew, in Warren, Heskimer county, last December, and cut up and burned the remains, was to-day sentenced by Judge Williams to be executed Wednesday, November 25. No woman has been executed in central New York for over forty years.

COTTON.—The following are the total net receipts of cotton at all the United States ports since September 1885: Galveston, bales, 124,535; New Orleans, 104,318; Mobile, 19,662; Savannah, 169,529; Charleston, 96,791; Wilmington, 20,948; Norfolk, 50,295; Baltimore, 1,324; New York, 1,442; Boston, 491; New York, 355; Philadelphia, 1,218; West Point, 28,487; Brunswick, 2,345; Port Royal, 987; Pensacola, 3,122; Indianapolis, 781. Total, 626,503.

John Robinson's circus had a smash up on the Union Pacific Railroad. Three sleepers were crushed, five men were killed and 40 wounded out of 200.

HAPPENINGS IN THE STATE.

—Mr. Ingold, who wagers for Mr. Joe Causey, of Greensboro, had been taken \$250 and \$400 stolen from him near Hill's Store, a few days ago, by a boy about 16 years of age, who he had with him in the wagon. The money was taken from a trunk that the darkey unlocked while Ingold was taking breakfast at W. R. Lewis. The darkey made his escape.

—Greensboro *Workman*: The Baptist church has purchased that beautiful lot which belonged to Capt. J. T. Morehead, at the corner of West Washington and Greene streets, and will build their new church on the corner lot and use the other lot some future day for a parsonage. The lot fronts 154 feet on West Washington street and is large enough for both.

—It has been rumored for several weeks that a party of Northern capitalists were trying to buy the Warm Springs property in this State, and an Asheville dispatch to the *Charlotte News and Courier* tells us that they have succeeded, the price paid being \$100,000 cash. A new and elegant hotel to take the place of the one recently burned will be erected at once. The Warm Springs has long been a famous watering place, and the curative properties of the waters are said to equal those of the Arkansas Hot Springs. The property paid for the property is not large, as there are about one hundred acres, including an artificial lake and park.

—*Charlotte Observer*: FARMING ON A BIG SCALE.—Mr. Peter Hairston, of Baltimore, is a large land owner in Rowan, Davidson and Davidson counties. Mr. Frank Brown, a Salisbury man, has the management of Mr. Hairston's lands, and is doing some big farming. What was not a success, except in greatly favored localities, anywhere in North Carolina, this year, but Mr. Brown harvested about 6,000 bushels—only little more than half a crop. The corn crop to be gathered this fall is estimated at 30,000 bushels! It may exceed those figures. Electric light is being put on tobacco crop. He has six hundred thousand hills of tobacco! It is in good condition, and with average curing, it is estimated that the crop will be worth \$10,000. Cotton and the smaller crops are not brought into the count.

—*Salisbury Watchman*: These are Solid Facts. The best blood purifier and system regulator ever placed within the reach of suffering humanity, truly is Electric Bitters. Inactivity of the Liver, Biliousness, Jaundice, Constipation, Weak Kidneys, or any disease of the urinary organs, or ever requires an appetizer, tonic or mild stimulant, will always find Electric Bitters the best and only certain cure known. They act surely and quickly; every bottle guarantees to give entire satisfaction or money refunded. Sold at fifty cents a bottle by Druggists.

—One thousand barrels of whisky owned by John B. Thompson, of Harrodsburg, Ky., were seized by the Revenue men last week. Mr. Thompson is one of the Whiskey Ring, that is the big whiskey distillers, who insist upon retention of the Revenue law which upholds the tax on whisky, and yet object to paying the tax on the monopoly.

WHEAT.
TO THE FARMERS.
The indications now are that by harvest time, 1886, the entire wheat product of the country will have been consumed. Business is reviving all over the country and we are of opinion that there never was a more favorable outlook for good prices for the next crop, however large it may be. To those who contemplate sowing we wish to say that we have a supply of the *Star Brand* Wheat *Guano* on hand from the factory, dry and in good condition to drill. *Standard guaranteed.* Price has been reduced to 3.25 per bag cash, and 3.75 per bag on time. At these prices you cannot well afford to sow wheat and not use it.

Your friends truly
HINSHAW & BYNUM.

CHAMBER OF COMMERCE.—For some time past an effort has been made to establish a Chamber of Commerce, to be composed of all our professional and business men. Several meetings recently had the tendency to awaken the proper spirit and insure the organization of so important a body. At a meeting on October 5th, at which the various trades and professions were well represented, a constitution and by-laws were read and ordered to be printed so that every one could read and study the same preparatory for action at the next meeting. The public roads leading into the town was a question taken up and freely discussed and a committee appointed to look into the feasibility of improving them.—Sentinel.

County Commissioners Court.
 Retail liquor license was granted H. Pitts, Phelps & Vogler, T. A. Livingston & Co., and larger beer license to C. A. Winkler.

Fifty-four releases were granted on poll and double taxes.

Ordered that a petition for a public road from Bethania to Winston to follow the ridge road (now in use) from Bethania to the residence of Thomas Thacker, thence to intersect with the Old Plank road at such places as a jury may determine, thence to follow said plank road to Winston, be granted, and a jury appointed to lay off said road, viz: E. T. Lehman, Francis M. Pratt, E. T. Petree, R. Y. Yarborough and Wm. M. Hinshaw.—Sentinel.

LOCAL CORRESPONDENCE.

—Mrs. Chloe Stewart's 99th birthday will be celebrated next Monday.

—Some cases of diphtheria are reported in Davidson county, along the Yadkin river.

—A protracted meeting will begin at Union Ridge, on the fourth Sunday in this month.

—The Eastern Field Trial Club will meet near High Point early in November.

—It is said that more than 1,500 tobacco barns have been built in Guilford county during the past summer.

—Wild grapes have continued to fall off, until there are but few left, but "possums can live on possums for they are tolerably plenty.

—Jack Frost came in for a share of Jonathan Jones' tobacco last week. A few hundred pounds along the meadow fell to his share.

—Next Sunday will be the Communion meeting at Hopewell, and the funeral sermon of Mrs. Snider, wife of Alexander Snider, will be preached then and there.

—Mr. Snow, of Guilford county, raised sweet potatoes which weighed over three pounds apiece. His crop this year will measure over 600 bushels.

—Rev. Pinnix, of this county, has a hen which was hatched this spring and now has a brood of chickens which she has just hatched.

—Madison Stewart has turkeys larger than a pint cup. His patch is the best one that we have seen in this neighborhood.

—One person tells us that the condition of new sweet potatoes is greatly improved by digging them, and laying them in the sun a few days before using. They become much sweeter and are healthier than when first taken.

—We are told that some hogs have died from cholera, in the lower part of Davidson county, but that there are many left, and a large amount of pork will be slaughtered in that locality this year.

—From observation it becomes apparent that a large amount of hay is being hauled to Salem. Last Saturday we started to Lexington, and entering the Lexington road seven miles from Salem, we met 7 loads which were going to supply Salem and Winston's demand.

—Burgess Heitman, who resided near Lexington and has several children and a wife living, married another lady in Forsyth county, and his and his new wife have gone westward. From what his neighbors told us, it will not be healthy for him to come home again.

—We hear that J. Frank Stout, of Muscadine, Davidson county, is blind. It was caused by cataracts growing over his eyes. Mr. Stout has frequently bought up cattle in lower Davidson, and brought them up to the butchers of upper Davidson and Forsyth.

—On last Sunday while Madison Stewart's little son Franklin was playing with other children at Rich and Bessons', a log from the top of the corn crib fell on his leg and hurt it so badly that he has not been able to walk on it since then. It is thought that the bone is not broken but it may be bent or fractured.

—A few fields of cotton are within view of the road near Lexington, and they are white with open bolls. A portion of the ground has been picked over for a first time. Some complain that the bolls fell off badly from some unknown cause, and that it is not so good on this account. Most of the people in this section are giving up cotton culture, and commencing to raise tobacco.

—David Jones is of the opinion that the coming winter will be a mild one owing to the gusts late this fall. His prognostications this spring held good during the summer, and we have noticed that he guesses it correctly on so many occasions, that he deserves to be ranked with the weather prophets. He thinks cold weather is not close at hand, as wild geese and pigeons have not yet come South.

—The class of teachers, examined in Lexington on last Saturday was small, but we are highly pleased with Mr. Raper's plan of examination. By it he thoroughly tests the scholarship of the applicant, and grades him according to merit. With the efficient Superintendent, assisted by its competent "Board of Education," Davidson may look for some improvement in her educational facilities.

—A farmer says that hogs should not be allowed to remain long in one place. A change once a month, even in small lots, does much to the benefit of their health. He says they should not be allowed to have the same food long at a time. If fed all the time on corn they are apt to contract disease. Besides grain they should be fed on grass, fruits, roots and slop. They should be salted regularly, and occasionally receive a small amount of copras and salt-petre. Great regularity should be observed in feeding and watering them. If properly managed, he thinks hogs are not apt to die with any disease.

—David Jones has a white oak tree standing in his yard, which is nearly five feet in diameter. Formerly it was kept topped and the limbs have spread out until it is nearly ninety feet from the tips of the limbs on one side to the tips of those on the other side. It covers a little over one-seventh of an acre of ground. It bears acorns nearly every year, and the crop on this year will measure over ten bushels.

—Rev. D. J. Koontz, (col.) of Lexington, says that while he was from home on ministerial business, he received a letter stating that his sister lay a corpse in Lexington and in a few minutes another note announced his mother's death. Both died in the same house on last Thursday, at about the same hour and both were buried on Friday in the same grave. A Lexington man who assisted in their burial says he never knew of two adults of the same family to die at the same time before.

—We were at Lexington last Saturday, and noticed that tobacco barns near the road were all well filled with tobacco, and the most of them were sending off a cloud of smoke, being heated up and containing tobacco which was just undergoing the process of curing. A few were cooled down waiting for the tobacco to come in case to be removed to give place to other tobacco. Much tobacco is standing, and persons told us that the frost had not injured it in this vicinity yet last Saturday, but they say it is not safe to let it stand long now.

—Last Saturday we met Henry Rothrock, in Lexington. Mr. Rothrock was raised in upper Davidson, but has resided near Thomasville for many years. He says his nine year old daughter met her death by peculiar circumstances, about a year ago. She was taking care of a small child and attempted to go into a school house near by to play. The window was low, and while she was passing through it, the sash fell down on her head, killing her instantly. This shows the danger of allowing children to play near a raised window, unless it be securely propped. The family knew nothing of it until they found her dead.

Meeting of the Winston Tobacco Association.
 The Winston Tobacco Association met on Tuesday, Oct. 6th in Farmers' Warehouse, Winston. The meeting was a large and enthusiastic one, and was characterized by the greatest harmony and good feeling. The officers-elect represent all branches of the tobacco interest, and in their choice all classes find perfect satisfaction.

The election of these officers and the good feeling that prevails among us, is a guarantee that the farmers interest will be well attended to the next year.

The officers for the coming season are: President—Col. A. B. Gorrell, Vice-President—E. A. Ebert, Secretary—E. C. Edmunds, Treasurer—Thos. Barber, Committee of Arbitration—Jack Taylor, A. M. Coleman and L. L. Lunn.

And now, to the farmers we would say that we want you to bring your tobacco to Winston. The trade here demands twenty millions of pounds and must have it. There are orders here for tobacco running from the nearest train to the finest of bright wrappers. There is ample room for storage, and we have plenty of money to-day for the whole crop with biggest kind of prices.

E. C. EDMUNDS, Sec.

DAVIDSON COUNTY.
 From the Lexington Dispatch.
 —There is a woman living in this county, who is the mother of 16 or 17 children, 11 of whom are living. She has 84 grand-children and 32 grand-children. She is 72 years old.

—Mr. Nema F. Heitman started to Kansas City on Tuesday night. He will hang out his shingle there, or go farther west.

COUNTY COMMISSIONERS' COURT.—The county commissioners were in session on Monday and Tuesday of last week. They transacted the usual amount of routine business, drew the jury for the December term of the Superior Court, and laid out some work for their next meeting. The proceedings, as far as they are of interest to the public, are as follows:

It was ordered that a bridge be built at Evan's mill to cost \$14.

A petition for a public road to be opened in Cotton Grove Township, was postponed for final consideration at the next meeting.

A similar petition from citizens of Arcadia, was disposed of in the same manner.

A stock law petition from citizens of Cotton Grove was also postponed until next month.

It was ordered that a new chair be bought for the use of the judge of the Superior Court.

The following list of jurors was drawn:

John A. Heitman, J. H. Freezor, B. L. Hunt, George Keypley, Iry Skeen, E. W. Cates, James M. Conrad, A. M. Young, D. W. Pickett, W. A. Stone, A. D. Frank, George W. Green, Lafayette Reid, Samuel L. Surratt, Lewis Newsom, D. C. Perrell, Andrew C. Everhart, Benjamin Doty, Alexander Harmon, Randle Hiltton, R. C. Whirlow, Jacob T. Fishel, E. P. May, Julius A. Hoge, C. D. Workman, Adam S. Hedrick, James I. Stoner, Henry C. Cross, Martin Everhart, C. E. Garner, Philip A. Hoge, J. W. Haden, C. L. Conrad, H. L. Halton, W. T. Hailey, Jacob Lookabill.

has 11 acres rented land of Mr. D. Raper that will make from 120 to 150 gallons of syrup, and more pounds of fodder and seed than could have been made on the same land in corn. Mr. Forebee says that he is no tobacco man, prefers to raise something that he can feed or eat, and that the same land without extra labor deducted from tobacco raising, will pay better in cane or vegetables.

Mr. D. Raper, the syrup maker of this neighborhood, has not yet commenced boiling. He says that many neighbors have applied to get their cane worked up, but he cannot accommodate all, though he will make several hundred gallons as usual, but cannot devote as much time to it as formerly.

Mr. C. W. Davis is bound to succeed as a teacher of vocal music. He closed his singing school at Banker Hill on the 4th. Everything passed off pleasantly, a good attendance, and the class had made great improvement under his vigilant instructions. He closed his singing on Sunday, 11th inst., at Davidson High School House. The class did remarkably well, had a large audience, many from a distance of eight to ten miles. There was a little "California desperado" miss-doings attempted in the evening, believed to have been a premeditated arrangement to reflect on Mr. Davis and a portion of his class; however, the good citizens took charge of the Elephant and soon had him in his proper quarters. The remainder of the evening passed off pleasantly.

Mr. Davis has a class now at Sedgewood, Forsyth County, and one at Sandy Ridge, Guilford County. Will sing first day at Sedgewood on Friday, 16th, and Saturday at Sandy Ridge.

Abbott's Creek, Oct. 12th, 1885.
